

"The READING BEYOND list celebrates the power of books to lift and expand children's minds, providing reading experiences beyond levels and limits."

- Susan Polos and Janet Wong, co-chairs of the ALA-CBC Joint Committee

These books were chosen from over 600 submitted for evaluation by the ALA member librarians of the committee and were chosen for their content, quality, and variety of genre and format.

We suggest the following sites for more book titles:

For Children in Grades K-1 reading at a 3rd Grade level

Here are 25 books chosen by the American Library Association & Children's Book Council Joint Committee to provide guidance to parents, caregivers, teachers, librarians, and others interested in discovering books for children who read at an advanced level and are seeking more challenging, but still age-appropriate, books.

New for 2017-2018

Ada Byron Lovelace and the Thinking Machine

by Laurie Wallmark
Illustrated by April Chu
Creston Books, 2015

This biography introduces young readers to the amazing Ada Byron Lovelace, creator of the world's first computer program.
